In the event sufficient working capital is released prior to the one-year period and the Manager deems returning the amount of the Capital Account will not disrupt the workings of the Company, the Manager may at his sole discretion return the funds during the one-year waiting period.

As an alternative to property liquidation to release investor funds, the Manager may buy out the Member. The value of properties will be determined by appraisal, and the recovery amount will be 90% of value to simulate commissions and closing costs. Upon any Member's withdrawal of less than the entire balance of his or its Capital Account, such Member's Percentage Interest will be reduced to reflect such Member's continuing interest in the Company, and such Member's Capital Account balance will likewise be adjusted. All such adjustments will be done in such a manner and at such time so that on and after the first day of the first Fiscal Year commencing after such Member's partial withdrawal, the Percentage Interests of the Members properly reflect such partial withdrawal.
